## Training4Transport Introduce LoCity Driving

Training4Transport launch new Driver CPC Course, [LoCity Driving](#). This course is designed to give drivers an insight into strategies to reduce fuel use, emissions and improve air quality.

Course key areas:

- How good journey planning, vehicle checks and maintenance can reduce emissions.
- How to apply fuel-efficient driving techniques designed to improve efficiency.
- The value of vehicle design and technology.
- How in-vehicle technologies improve driving performance and reduce impact with VRU's.
- Alternative cleaner fuels that are available for commercial vehicles.

This course focuses on minimising the environmental impact of heavy goods vehicles by reducing emissions through the use of fuel-efficient driving techniques, cleaner vehicles and alternative fuel technologies.

The course equips drivers with knowledge of:

- Air quality and fuel efficiency.
- How vehicle checks and maintenance can help reduce emissions.
- Fuel-efficient driving techniques.
- The benefits of journey planning.
- How to use in-vehicle technology to improve driving performance.
- Alternative fuels in commercial vehicle fleets.

By attending this JAUPT approved course attendees will gain 7 hours towards their required 35 hours of periodical training\*. It is also a FORS accredited course, which will be uploaded to the FORS register upon completion of the 7 hours.

Training4Transport also offer a variety of other CPC courses such as;

- [Safe Urban Driving](#)
- [Module 1](#)
- [Safer Loader Loading Safely](#)
- [Abnormal Loads - STGO Awareness.](#)

\*NOTE: The 35 hours of training will need completing by 9th September 2019!

- ENDS -
